

CREATE AND CONFIGURE IBM CLOUD SERVICES

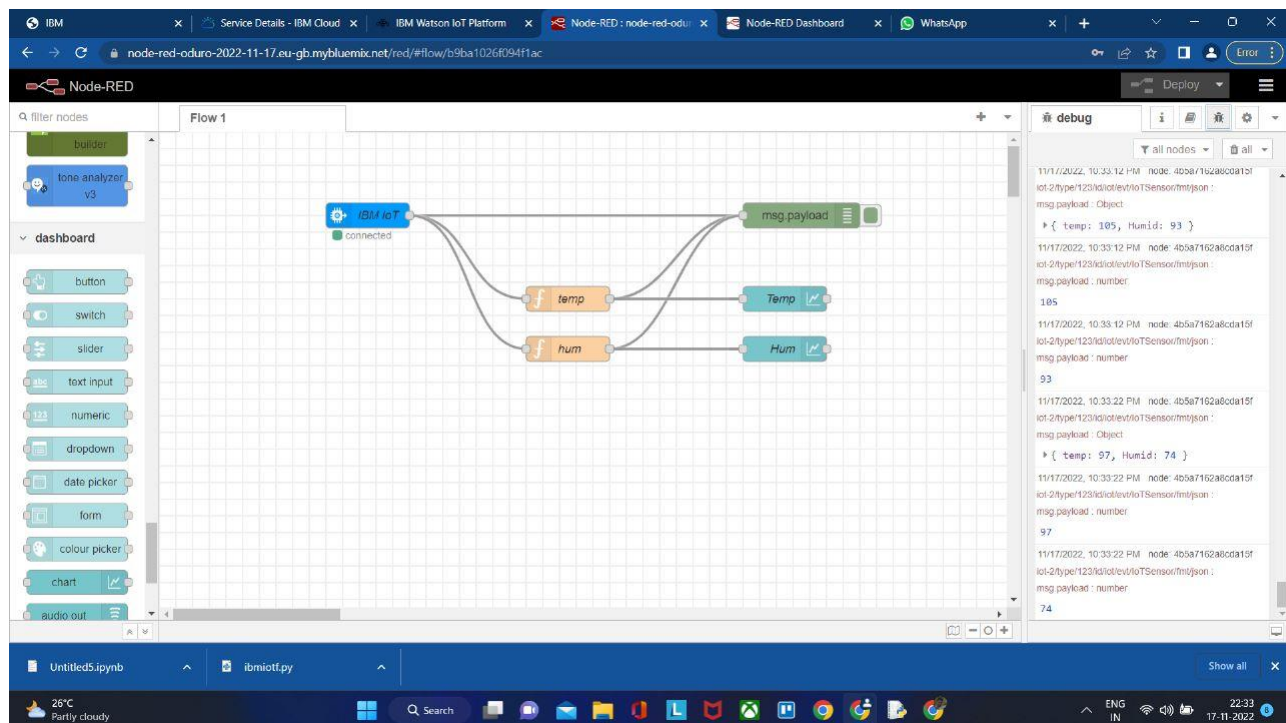

Create IBM Watson IoT Platform And Device

- IBM Watson IoT platform acts as the mediator to connect the web application to IoT device, so create the IBM Watson IoT platform
- In order to connect the IoT device to the IBM cloud, create a device in the IBM Watson IoT platform and get the device credentials.
- Configure the connection security and create API keys that are used in the Node-RED service for accessing the IBM IoT Platform.

Create Node-RED Service

- To create a web application create a Node-RED service.

- Thus IBM IOT Watson platform and Node –Red services are successfully created.
